Aspiring Software Engineer currently in the fourth year of study, with a strong foundation in programming and problem-solving, and hands-on experience in software development, system integration, and IoT.

## EDUCATION

### Bachelor of Engineering in Computer and Communications (Master level) Software and Network Engineering

Antonine University, Lebanon

2022 - present

## PROJECTS

### Project 1 - MealsApp

- Developed a mobile application, MealsApp, using Flutter Framework that allows users to navigate between meals, add reviews, and generate a 7-day AI powered Schedule based on user preferences.
- Flutter, Dart, Riverpod, Firestore, Firebase Authentication, Firebase AppCheck, Firebase AI.

### Project 2 - Hawilni

- Hawilni is a money transfer web application that allow users to send and receive money inside and outside their countries. The platform features role-based dashboards for Admins, Agents, and Users, each offering tailored tools for managing transactions, approvals, and account activity.
- PHP, Laravel, React, Vite, Tailwind CSS.

### Project 3 - ObjectO website

- A modern e-commerce web platform featuring product catalog management, category/tag systems, discounts, and a full admin dashboard for CRUD operations.
- Entity Framework, MVC, ASP.NET, C#

## PROFESSIONAL EXPERIENCE

### OPERATION MANAGER | FADY SPORT | LEBANON

2019 - present

- Managed ski rentals and equipment sales at Fady Sport for 6 years, leading the team and supporting the owner in business operations.
- Enhanced and expanded my communication skills to engage customers and collaborate with teammates, resulting in increased customer satisfaction and productivity.

### INTERNSHIP – IOT & WEB DEVELOPMENT | JOYA SMART (S.A.L.) | LEBANON

07 / 2025 – 08 / 2025

- Gained Hands-on experience in sensors and IoT protocols Mod-Bus, MQTT and Lora.
- Conducted advanced practical work on PHP and Frontend development to build responsive and user-friendly interfaces using JavaScript and jQuery.
